Object : Rambouillet FEI* (160km) endurance ride held
on 13 May 2006**

Welcome to the traditional Rambouillet endurance ride, which this year will be held in six loops over the distance of 160km.

Three months before the World Equestrian Games in Aachen, our ride provides the perfect opportunity to qualify or fine-tune horses for this important event. The French Endurance Team will use Rambouillet to qualify riders for Aachen. This fact, as well as our fast circuit over mainly flat and good footing in forest and overplains, will ensure high-level participation in the event.

The venue of the ride is the beautiful Rambouillet racetrack, approximately 40km SW of Paris with plenty of space and an area for free camping. This year 3 vet-gates + the final vetting will take place at the racetrack.

The advance program is attached. The circuit will soon be made available on our website, see below. Coordinates of hotels near the venue can be found under: "Informations/Hébergement".
